

STEM CELLS SEMINARS

Upcoming Schedule

February 18, 2011 12:00-13:00	<p>Kausalia Vijayaragavan, PhD. Department of Regenerative Cardiology Fundación Centro Nacional de Investigaciones Cardiovasculares Carlos III, Madrid</p> <p><i>"Human Pluripotent Stem Cells for Modelling Early Development"</i></p>	Seminar Room, Fundación InBiomed
February 25, 2011 12:00-13:00	<p>Gianluca Civenni, PhD Division Cell and Developmental Biology Institute of Anatomy, University of Zurich</p> <p><i>"Dissecting Tumor Heterogeneity of Human Malignant Melanoma"</i></p>	Seminar Room, Fundación InBiomed
March 2, 2011 12:00-13:00	<p>M. Teresa Moreno-Flores, PhD. NeurOrEGen Lab. Facultad de Ciencias Universidad Autónoma de Madrid</p> <p><i>"Reversible immortalization and characterization of human olfactory ensheathing glia: capacity to promote axonal regeneration"</i></p>	Seminar Room, Fundación InBiomed
March 4, 2011 12:00-13:00	<p>Tristan Rodriguez, PhD Molecular Embryology Group, MRC Imperial College, Hammersmith Hospital Campus, London, U.K.</p> <p><i>"Dissecting the pathways underlying neural specification in mammals"</i></p>	Seminar Room, Fundación InBiomed
March 7, 2011 12:00-13:00	<p>Alessandra Giorgetti, PhD Centro de Medicina Regenerativa de Barcelona, CMRB Barcelona</p> <p><i>"Human cord blood and embryonic-like stem cells"</i></p>	Seminar Room, Fundación InBiomed
March 18, 2011 12:00-13:00	<p>Anna Dubrovskaya, PhD The Scripps Research Institute, La Jolla, CA, USA</p> <p><i>"Tumor initiating cells as therapeutic target for prostate and breast cancers"</i></p>	Seminar Room, Fundación InBiomed

* Please confirm your attendance by writing to lserrano@inbiomed.org

Fundación Inbiomed. Parque Tecnológico Miramón. Paseo Mikeletegi 61 Bajo.
20009. San Sebastián. Gipuzkoa.
